

Logo Guidelines

Semiconductor Research Corporation

The SRC logo represents the value and legacy that SRC brings to the semiconductor industry and beyond. It serves as the face of our company in print and digital communication. All promotional materials should include the logo using the guidelines below.

The SRC logo and alternate variations are available for download at <https://www.src.org/about/logos/>.

The SRC logo as shown below is the correct logo to use to represent SRC.

CLEAR SPACE

Any background inside of this clear space must be even, unpatterned, and free from typography or any other graphic elements. If the SRC logo is used directly on a photographic image, the clear space area must provide good contrast between background and the SRC logo, be even in tone and pattern free.

To ensure maximum impact, all applications of the SRC logo should include clear space around the SRC logo equal to the height of "SRC".

SIZE

The logo should never be scaled down to a height smaller than 5/8 inches for print communication and a height of 50 pixels for digital communication.

Logo Guidelines

Semiconductor Research Corporation

SCALE

When sizing the logo up or down, be sure to size it to scale so that it is kept in its original proportions. It should not be stretched, distorted or rotated in any way.

PLACEMENT

The logo should be placed near the top or bottom of any promotional materials in an area that can easily be seen. The logo should never be crowded with other graphics or hidden, unless special consideration has been approved.

COLORS

The SRC logo may be used in the approved corporate color palette.

Primary Palette

| PMS | CMYK | RGB | HTML |
|---------------------|----------------|---------------|--------|
| PMS 288 | 100, 80, 6, 32 | 0, 45, 114 | 002D72 |
| Pantone Cool Grey 9 | 30, 22, 17, 57 | 117, 120, 123 | 75787B |
| BLACK | 0, 0, 0, 100 | 0, 0, 0 | 000000 |

Always reproduce colors using these formulas. Do not use the standard software translation values when converting PMS colors CMYK or RGB.

The primary colors of SRC are Pantone 288 and Pantone Cool Grey 9.

*Note: The white version of the logo may be used on alternate background colors with approval from marketing.

Logo Guidelines

Semiconductor Research Corporation

VARIATIONS

The SRC logo may not be embellished or altered in anyway. The only variations of the logo that may be used include the individual initiative logos as shown below.

Initiative Logos

Each initiative may use the sub-logo for promotional materials as shown below.
